Systems That Expand With Your Needs

Domino Direct Printing and Interactive Control

Engineered Solutions. From simple outside addressing on a mailing base to a plant-wide network of high volume, selective binding systems, Domino is your single source for variable ink jet printing and interactive finishing control systems. Domino provides complete integrated finishing systems specifically engineered for your unique application. This eliminates the delay, confusion and cost overrun of dealing with multiple vendor sources. With modular systems configured to your needs, you benefit immediately by maximizing the return on your finishing operations. Inside and outside addressing, personalization, numbering, POSTNET bar coding, comprehensive production statistics and interactive diagnostics control are at your command.

Domino can interface with your operation on any level of production – from start to finish!

System Flexibility

Teamed with Domino's reliable, low maintenance ink jet printers, you gain total systems capability. For maximum versatility, all systems can be equipped with optional interfaces for most other manufacturers' printer models. Domino systems support all major high capacity data input media, and the PC-based operator interface readily adapts to future expansion.

Operational Simplicity

Your line personnel will appreciate the intuitive Domino operating software, which features easy-to-follow pull-down menus and prompts. User testimonials confirm that Domino programs are the easiest to run in the industry! For technical assistance with system programming and diagnostics, all systems can be equipped with an optional modem link to Domino central support for immediate, interactive on-line support.
